

Counter Top Boilers

Specialist Applications

Calomax are able to produce bespoke products to suit specialist applications such as rail, air, marine and other customized catering projects. This is possible as we, unlike many UK manufacturers today, have retained our own in-house design, fabrication, PCB production and general assembly functions at our Leeds base.

Cascade

Entry-level counter-top boiler most frequently used in the cafe/restaurant/pub environment but suitable for all medium volume applications, representing excellent value for money.

One model: **CAS-SS** 9 litre initial draw-off.

Maximum hourly output 30 litres (inc initial draw-off).

- 3kW power rating
- Integral scale-inhibitor technology
- Self-diagnostic service indicator
- Cool-to-touch stainless steel casing
- Supplied with complementary spill-tray
- 1 year warranty
- No steam emissions
- 13A plug fitted
- Supplied complete with food grade hose
- Dimensions: H 535mm W 240mm D 360mm

**NEW PRODUCT!**

Quantum-e

Designed for applications requiring additional safety features. The Quantum-e incorporates a key-controlled, push-button dispense system as well as an energy-saving feature.

One model: **QE** 9 litre initial draw-off.

Maximum hourly output 30 litres (inc initial draw-off).

- 3kW power rating
- Key operated, lock / unlock status
- Push button dispense operation
- 'e' button that reduces energy consumption when pressed
- Integral scale-inhibitor technology
- Concealed tap for additional safety
- Supplied with complementary spill-tray
- 2 years warranty
- No steam emissions
- 13A plug fitted
- Supplied complete with food grade hose
- Dimensions: H 535mm W 240mm D 420mm

Kudos

Counter-top boiler designed for medium-to-high volume applications where a higher flow-rate is required. Styled for front-of-house location.

One model: **KUD** 12 litre initial draw-off.

Maximum hourly output 40 litres (inc initial draw-off).

- 3kW power rating (1 or 2kW versions available on request)
- Integral scale-inhibitor technology
- Service indicator
- Attractive two-tone outercasing
- Optional mirror finish back cover to conceal connections
- Safety heat-shroud fitted to tap
- Supplied with complementary spill-tray
- 2 years warranty
- No steam emissions
- 13A plug fitted
- Simple installation
- Supplied complete with food grade hose
- Dimensions: H 535mm W 380mm D 275mm

## Kudos Dualflow Range

Enhanced versions of the Kudos boilers. The Dualflow system has two dispensing nozzles which operate at different flow rates... one faster for use with large vessels; the other slower for filling small cups safely, without scalding or splashing.

Three models: **KUD-3/DF** - 3kW 22 litre initial draw-off.  
Maximum hourly output 50 litres (inc initial draw-off).  
**KUD-6/DF** - 6kW - single phase. 22 litre initial draw-off.  
Maximum hourly output 78 litres (inc initial draw-off).  
**KUD-9/DF** - 9kW - 3 phase. 25 litre initial draw-off.  
Maximum hourly output 109 litres (inc initial draw-off).

- Choice of flow rates to ensure suitability for all applications
- Integral scale-inhibitor technology
- Service indicator
- Attractive two-tone outercasing
- Optional mirror finish back cover to conceal connections
- Safety heat-shroud fitted to tap
- Supplied with complementary spill-tray
- 2 years warranty
- No steam emissions
- 13A plug fitted on 3kW version
- Simple installation
- Supplied complete with food grade hose
- Dimensions: H 745mm W 380mm D 275mm

## CB32

Reliable "work-horse" boiler, used by hospitals throughout the UK.

**Superseded by the superior Kudos model for counter-top applications and by the Clipper boiler for wall-mounted use.**

- 3kW power rating
- Economy selector switch energy-saving mode
- Stainless steel finish
- Space saving counter-top unit
- Concealed connections
- Dimensions: H 457mm W 340mm D 260mm
- Drip tray available as an optional extra

## Wall Mounted Boilers

### Specialist Applications

Calorex are able to produce bespoke products to suit specialist applications such as rail, air, marine and other customized catering projects. This is possible as we, unlike many UK manufacturers today, have retained our own in-house design, fabrication, PCB production and general assembly functions at our Leeds base. For further details and advice on how we can assist with your project please [contact us](#)

### Compact

Wall-mounted; the smallest boiler in the range, introducing the benefits of constant hot water to the small workplace environment.

One model / Choice of outer-casing:

**COM-SS** Stainless Steel. 2.5 litre initial draw-off  
Maximum hourly output 22.5 litres (inc initial draw-off)  
**COM-W** White. 2.5 litre initial draw-off  
Maximum hourly output 22.5 litres (inc initial draw-off)

- 2kW power rating
- Integral scale-inhibitor technology
- Self-diagnostic service indicator
- 1 year warranty
- Cool-to-touch stainless steel or white outer casing
- No steam emissions
- Compact size
- Dimensions: H 415mm W 285mm D 226mm

## Clipper Range

Advanced technology. Wall-mounted, ideal for factory/warehouse shop-floor refreshments, also for hospital ward kitchens and other applications where space is limited.

Four models / Choice of outer-casing:

- 5L-SS** Stainless Steel. 5 litre initial draw-off  
Maximum hourly output 25 litres (inc initial draw-off)
- 5L-W** White. 5 litre initial draw-off  
Maximum hourly output 25 litres (inc initial draw-off)
  
- 7.5L-SS** Stainless Steel. 7.5 litre initial draw-off  
Maximum hourly output 27 litres (inc initial draw-off)
- 7.5L-W** White. 7.5 litre initial draw-off  
Maximum hourly output 27 litres (inc initial draw-off)
  
- 10L-SS** Stainless Steel. 10 litre initial draw-off  
Maximum hourly output 30 litres (inc initial draw-off)
- 10L-W** White. 10 litre initial draw-off  
Maximum hourly output 30 litres (inc initial draw-off)
  
- 15L-SS** Stainless Steel. 15 litre initial draw-off  
Maximum hourly output 35 litres (inc initial draw-off)
- 15L-W** White. 15 litre initial draw-off  
Maximum hourly output 35 litres (inc initial draw-off)

- 3kW power rating
- Integral scale-inhibitor technology
- Self-diagnostic service indicator
- 2 years warranty
- Cool-to-touch stainless steel or white outer casing
- No steam emissions
- Advanced technical features
- Dimensions: **5L** - H 510mm W 313mm D 226mm  
**7.5L & 10L** - H 582mm W 368mm D 251mm  
**15L** - H 623mm W 401mm D 274mm

## Accessories

**NEW**

### Easy-Fit Water Filters

Although municipally treated water is safe to drink, the chlorine that is added can often cause a bad taste, that may be exaggerated when the water is boiled. To combat this, we can now offer a [WRAS approved](#) water filter that reduces taste and odour problems associated with high chlorine levels. The filters also incorporate polyphosphate scale inhibition to compliment the scale inhibitor integral to our modern range of boilers.

- Order Code: **10TOSCK** - 10" GAC taste and odour + polyphosphate scale inhibitor and installation kit comprising of 2 x 15mm push-fit to 3/4" hoses, integral isolator, wall fixing clip and 6-month timestrip.
- Overall length of filter and hoses approx 1m
  
- Order Code: **10TOSC** - Replacement 10" GAC taste and odour + polyphosphate scale inhibitor and 6-month timestrip.

Model Shown: 10TOSCK

Important: When fitting a Granulated Activated Carbon (GAC) filter, 20 litres of water must be flushed through before commissioning

**NEW**

### Energy Saving Timeswitches

Spiralling energy costs coupled with the environmental impact of CO2 emissions mean it has never been more important to save energy. Although Calomax boilers are more energy efficient than conventional alternatives, a timeswitch can further reduce energy usage in periods when boiling water is not required, such as overnight and at weekends. The timeswitches can also be used on other similarly rated appliances.

- Order Code: **7DPIT** - Plug-in Timeswitch
- 230V, 13A (3kW resistive) rated
- 7-day, easy 4 button setting
- Digital display

- Factory fitted 1000hr battery back-up

- Order Code: **7DFST** - Fused Spur Timeswitch
- 230V, 13A (3kW resistive) rated
- 7-day, easy 2 button setting
- Fused spur and double pole switched isolation
- Digital display
- Factory fitted 1000hr battery back-up

## NEW

### Boiler Securing Clamps

For applications where the secure fixing of the water boiler to the work surface is of paramount importance; such as in Hospitals, Prisons and Residential Homes.

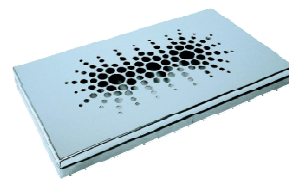

- Order Code: **CNC** - to suit Cascade and Quantum models
- Order Code: **QEC** - to suit Quantum-e models
- Order Code: **KC14MM** - to suit the Kudos range of boilers

Model Shown: KC14MM

### Stainless Steel Drip Trays

- Order Code: **SSDTK** or **HSSDTK** - surface mounting
- Order Code: **SSDTWDK** or **HSSDTWDK** - complete with drain connection
- High grade stainless steel bowl and strainer

### Free Standing Moulded Drip Tray

- Order Code: **PDTK** - for surface mounting
- Suitable for use with all Calomax boilers
- Anti-Splash design

### Counter Insertion Moulded Drip Tray

- Order Code: **PDTWDK** - counter insertion type with drain connection
- Suitable for use with all Calomax boilers
- Tough durable moulded ABS
- Anti-splash design

### Wall Mounted Drip Tray

- Order Code: **WMPDTK1** - for use with Compact & Clipper 5L
- Order Code: **WMPDTK2** - for use with Clipper 7.5L and 10L
- Order Code: **WMPDTK3** - for use with Clipper 15L

(WMPDTK1 shown fitted beneath a Compact)

#### Wall Mounted Work Unit

- Order Code: **WMDT1K** - for use with Clipper 5L
- Order Code: **WMDT2K** - for use with Clipper 7.5L, 10L & 15L
- Complete with drain connector
- Ideal for installations where no work surface is available

(WMDT1K shown fitted beneath a 5L)

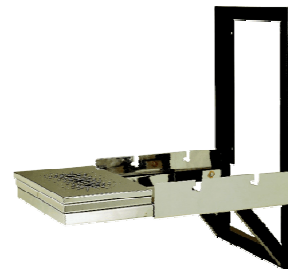

#### Kudos Back Panel

- Order Code: **KWBAC** - for use with Kudos and Kudos Dualflow
- Order Code: **K9BAC** - for use with Kudos-3, 6 & 9 and Kudos-3, 6 & 9 Dualflow
- Conceals all pipework and connections
- Ensures suitability for 'island' sites where rear of boiler is on view

#### Kudos Wall Mounting Bracket

- Order Code: **KWMBK** - to enable wall mounting of Kudos Range
- Order Code: **KWMBDTK** - optional stainless steel drip tray for use in conjunction with above wall mounting bracket
- Order Code: **KWMBDTWDK** - optional stainless steel drip tray with drain for use in conjunction with the above wall mounting bracket

(KWMBK shown fitted with a KWMBDTK)

#### Ingredient Caddy

- Ideal for organising your drinks area
- Attractive stainless steel finish
- Complements Cascade, Quantum, Quantum-e and Kudos range of boilers
- Order Code: **IC3** - 3 shelf version
- Order Code: **IC4** - 4 shelf version

#### Shelving Unit

- Adjustable shelf heights
- Wire shelves to ensure efficient drainage
- Attractive stainless steel finish
- Particularly complementary alongside the Cascade, Quantum, Quantum-e and Kudos range of boilers
- Order Code: **SHU**
